# MERMAIDS

Fine Art Artist

# Christina Wyatt

Florida is my native home. After earning a BFA in Painting and Printmaking from VCU School of Fine Art in Richmond Virginia. I returned to South Florida to live and work as an artist.

I have always found refuge in the making of my art. Several years ago while experiencing some troubled times the idea that there was a place where dreams live helped bridge that river of darker waters. Today, I continue to find refuge in the making of my art...and while there, it's that sanctuary of peace...where reverence lives that I strive to speak of through my paintings.

While my work continues to evolve, my intention is to create for the viewer a connection to that place where dreams live and poets speak.

Peace to you, Christina
